

## MULTIMIN®

### Supplement Injection for Cattle - 500mL

Chelated Trace Element Injection for Beef and Dairy Cattle deficient in and/or responsive to manganese, zinc, Selenium and/or copper supplementation. MULTIMIN™ is a new concept of mineral supplementation, designed to be administered strategically to “top up” essential trace minerals to assist in reproductive performance and immune response, resulting in higher profits for beef farmers.

- Easy Subcutaneous Injection
- Significantly increases trace element status of cattle
- Water based formulation
- Effective supplement for use at critical times (calving, mating and drying off)

**Active Ingredients:** 40g/L Zinc, 10g/L Manganese, 5g/L Selenium & 15g/L Copper
